

EUDAT Conference Porto | Posters & Demos

From 22 to 25 January 2018, EUDAT will hold a Conference in Porto (Portugal), to discuss about the practical steps for the EOSC. Below a full list of all posters and demos that will be shown during the Conference:

Posters				
#	Title	Author	Affiliation	Link
1	eInfraCentral - Helping users discover and access Europe's e-infrastructure services	Orsolya Gulyas	European Future Innovation System (EFIS) Centre	View
2	Data Curation and Provenance for the EUDAT Collaborative Data Infrastructure	Alexander Atamas	Data Archiving and Networked Services (DANS), The Hague, Netherlands	View
3	ENES Climate Analytics Service (ECAS), A Contribution to the EOSC-HUB	Sofiane Bendoukha	Deutsches Klimarechenzentrum (DKRZ)	View
4	Welcome DuraCloud Europe: Secure Storage in the Cloud	Susanna Mornati	4Science Srl	View
5	The Europeana Data Pilot: outcomes and conclusions	Nuno Freire	Europeana / INESC-ID	View
6	Bringing Europeana and CLARIN together: Dissemination and exploitation of cultural heritage data in a research infrastructure	Nuno Freire	Europeana / INESC-ID	View
7	Exploring the costs and scalability of research data management services	Sven Bingert	Gesellschaft für wissenschaftliche Datenverarbeitung (GWDG)	View
8	OpenAIRE: supporting the EC's Open Data Pilot in H2020	Pedro Principe	UMINHO	View
9	The EOSC as a knowledge marketplace: the example of ISIDORE	Suzanne Dumouchel, Paulin Ribbe	Huma-Num (CNRS)	View
10	CETAF stable identifiers for specimens	Anton Güntsch	Freie Universität Berlin, Botanischer Garten und Botanisches Museum Berlin	View
11	Creating simple data management plans	Adil Hasan	UNINETT Sigma2	View
12	EUDAT Data Subscription Service in the EuroArgo case	Jani Heikkinen	CSC - IT Center for Science Ltd	View
13	The WSL Environmental Data Portal EnviDat in the context of Pan-European Research Data Management Services	Ionut Iosifescu	Swiss Federal Research Institute for Forest, Snow and Landscape Research WSL	View
14	TSD and the Clinical Trial Pilot in EUDAT	Maria Francesca Iozzi	UNINETT/SIGMA2	View
15	Sensitive personal data: activities in the EUDAT CDI and future scenarios	Maria Francesca Iozzi	UNINETT/SIGMA2	View
16	Sensitive Data Group	Wolfgang Kuchinke	Heinrich-Heine University Duesseldorf	View
17	Metadata interoperability challenges in (distributed) research data infrastructures	Timo Borst	ZBW - Leibniz Information Center for Economics, Kiel, Germany	View
18	openBIS ELN-LIMS: a comprehensive data management solution for the Big Data era	Henry Luetcke	ETH Zurich	View
19	Towards a pan-European Infrastructure of Scientific Collections	Patricia Mergen	Botanic Garden Meise/ Royal Museum for Central Africa	View
20	EUDAT as a safe backup solution	Jozef Misutka	LINDAT/CLARIN	View
21	Array Databases for Research Communities	Christian Pagé	CERFACS	View

Posters				
22	EUDAT GEF/C4I: Pushing Climate Post-Processing to the Cloud	Asela Rajapakse	MPI-M	View
23	Digital preservation challenges and methodology using Cloud resources - the OPENCoastS case study	João Rogeiro	LNEC	View
24	Domain-specific metadata in B2SHARE records	Joana Rodrigues	INESC TEC/FEUP	View
25	Data Federation Hub: Building a Local Hub for Research Data Services	Anna Salzano	DFH/ CIT, University of Groningen (NL)	View
26	Promoting Open Science through new The Bridge of Knowledge platform at Gdansk University of Technology	Magdalena Szuflińska-Zurawska, Anna Wałek	Gdansk University of Technology	View
27	Preparing for the EOSC: Data-related training and community building for researchers, developers and trainers	Celia van Gelder	DTL Dutch Techcentre for Life Sciences / ELIXIR-Netherlands	View
28	Uptake of EUDAT services within the CLARIN infrastructure	Dieter Van Uytvanck	CLARIN ERIC	View
29	THE ICOS Carbon Portal Service Portfolio	Alex Vermeulen	ICOS ERIC	View
30	A Bridge from EUDAT's B2DROP cloud service to CLARIN's Language Resource Switchboard	Claus Zinn	University of Tuebingen	View
31	Handling Big Data and Sensitive Data Combining EUDAT's Generic Execution Framework with WebLicht	Claus Zinn	University of Tuebingen	View
32	Materials Cloud: A Platform for Open Materials Science	Snehal Kumbhar	EPFL, Lausanne	View
33	Support to scientific research on seasonal-to-decadal climate and air quality modelling	Francesco Benincasa	BSC	View
34	EUDAT B2FIND - Making Research Data FAIR	Claudia Martens, Heinrich Widmann	DKRZ, Hamburg Germany	View
35	Herbadrop Data Pilot: extracting knowledge from distributed herbaria across Europe	Pascal Dugénie	Centre Informatique National de l'Enseignement Supérieur (CINES)	View

Demos				
#	Title	Author	Affiliation	Link
1	eInfraCentral - Your gateway for European e-infrastructures in action	Orsolya Gulyas	The European Future Innovation Systems (EFIS) Centre	View
2	Data collection with B2DROP and LabTablet	Nelson Pereira	FEUP - INESC TEC	View & Video
3	OpenAIRE Services: We need your input!	Pedro Principe	University of Minho	View
4	Interactive showcase of the Dendro research data management platform	João Rocha da Silva	Faculty of Engineering of the University of Porto (FEUP) - Institute for Systems and Computer Engineering (INESC TEC)	View
