

EMBL-EBI

EMBL - EBI is looking for an E-Infrastructure Integration Specialist

EMBL - EBI is seeking to recruit an experienced technical expert to work as an e-Infrastructure Integration Specialist. He or she would join the Technical Services Team at the European Bioinformatics Institute (EMBL-EBI) located at the Wellcome Trust Genome Campus near Cambridge in the UK.

The candidate will work to identify collaborative opportunities around how EMBL-EBI stores, process and manages 'big data' for the life-sciences with European e-Infrastructure service providers.

Deadline 12th of April 2015

The EBI is part of the European Molecular Biology Laboratory (EMBL) and it is a world-leading bioinformatics centre providing biological data to the scientific community with expertise in data storage, analysis and representation. EMBL-EBI provides freely available data from life science experiments, performs basic research in computational biology and offers an extensive user training programme, supporting researchers in academic and industry. We are part of EMBL, Europe's flagship laboratory for the life sciences.
