## B2FIND Training Suite

### **B2FIND Service Overview**

Finding data objects and collections through EUDAT's B2FIND web based discovery portal.

[Click here to download the presentation.](#)

### **B2FIND User Training**

B2FIND is EUDAT's simple, user friendly metadata catalogue allowing users to discover metadata from a wide range of scientific communities.

[Click here to download the presentation.](#)

### **B2FIND Integration**

The aim of this presentation is to illustrate how metadata can be published in the B2FIND catalogue and how EUDAT's B2FIND metadata catalogue can be integrated.

#### Hands-on material

For step-by-step instructions on how to use (*for data managers and researchers*) and how to deploy and integrate (*for data managers and site administrators*) B2FIND, click on the following link:

<https://github.com/EUDAT-Training/B2FIND-Training>.

This training module provides hands-on material for OAI-PMH setup, Metadata mapping, implementation of a Metadata catalogue and portal (CKAN) and integration and usage of the EUDAT metadata service B2FIND.
