B2SHARE is a user-friendly, reliable and trustworthy way for researchers, scientific communities and citizen scientists to store and share small-scale research data from diverse contexts.

A winning solution to:

- **Store**: facilitates research data storage
- **Preserve**: guarantees long-term persistence of data
- **Share**: allows data, results or ideas to be shared worldwide

### B2SHARE features

- Integrated with the EUDAT collaborative data infrastructure
- Free upload and registration of stable research data
- Data assigned a permanent identifier, which can be retraced to the data owner
- Data owner defines access policy
- Community-specific metadata extensions and user interfaces
- Openly accessible and harvestable metadata

- Representational state transfer application programming interface (REST API) for integration with community sites
- Data integrity ensured by checksum during data ingest
- Professionally managed storage service – no need to worry about hardware or network
- EUDAT user support
- Monitoring of availability and use
